PRESIDENT'S MESSAGE

We have just witnessed one of the most colorful convention's to be held in the United States in a long time, with the 82nd A.N.A. anniversary, which was held in Boston during August. All records were broken with over 13,000 registered for the event. With this huge attendance, it was remarkable how well run it was. Your President surely learned much that can be used to practical advantage at our own Convention which is rapidly approaching.

We are particularly proud to report that our former Californian, Virginia Culver was elected to the presidency of this great organization. And also honored to have Maurice Gould of Tustin elected to the Board of A.N.A., Having received the third largest vote.

You both will make great gains and we want you to know we are at your beck and call to help you attain your goals.

Needless to say, all of the dealers did a thriving business and the huge bourse room was packed each day.

Abe Kosoff did an outstanding job as Master of Ceremonies at the banquet and our former A.N.A. President Herb Bergen proudly installed the new officers.

Yes, California was well represented in Boston.

INDIA NUMISMATIC TOUR

Chapman College is sponsoring an educational tour to India December 20, 1973 through January 5, 1974. Tour leader will be Dr. Sol Taylor, assistant professor of education and well-known numismatist. Featured in the visits to famous sites such as the Taj Mahal in Agra and the Red Fort in Delhi will be a visit to the Indian Mint in Bombay. Dr. Taylor will also guide interested persons into the niches where both antique buffs and numismatists would have a field day. Many out-of-way bazaars, small dealers, and shops have been identified by Dr. Taylor as selected sources of objects of art, handicrafts, antiques, coins, stamps, and gems. The entire tour which includes round-trip air fare, ground transportation in India, hotels, and most meals is \$995. Interested persons can contact Dr. Taylor at Chapman College, Orange, Calif. 92666. The group is limited to 21 persons.

SS RELEASE

Wedding bells have rung again for the numismatic hobby **C.A. Dunbar** led his bride down the aisle of the First Methodist Church of Santa Monica on Saturday, August 25th. Over 200 guests and relatives crowded the church and reception hall to wish the couple as he is affectionately known to all his friends, and his bride, Elaine Ney, much happiness.

Slim is one of our old time dealers, a past president of the S.C. as well as being one of its founders, past president of many local coin clubs and known far and wide for his friendly dealing with the entire hobby. Pauline has long been considered one of the first ladies of our hobby; she has been active in N.A.S.C., C.S.N.A., A.N.A., one of the founders of S.I.N., the California Exonumist Society and an officer and member in many of our Southern California clubs. Her friendly spirit has long been known to all of us and given her the title of first lady of California Numismatics.

The N.A.S.C. and all the hobby extend best wishes to this couple. This type of news is always a pleasure to share. Who knows what good things are not still happening in our hobby?

Jim Betton

FROM THE EDITOR'S DESK

One always hears remarks or questions, why was our club not listed in the Club News, or in the Calendar of Coming Events? Many times the editor never receives your club bulletin and prior to this time I have requested news for coming events be sent six months in advance. I would like to suggest that you send a follow up letter on the Calendar of Coming Events one week after the first notice. If you are told it was never received, you just do not believe it, but I can hear complaints all the time about the mail and some weird things do happen. This time I can prove a point - take a look at the photo below. Can you tell what club it is from? This is just as received by me.

Another complaint one hears, speakers do not show up for the meeting they are scheduled to speak at. Here is one from the other side that I have been hearing more often. I spent hours trying to find the club where I was a scheduled speaker. Sure I had the address but it is quite a way from where I live and I am not familiar with that area. Don't take a chance. Send a map to your scheduled speaker. I always ask for one when the club is located in an area I am unfamiliar with and I have always received one. I suggest also that if you have scheduled your speakers months in advance (some clubs do) send a follow up notice one month prior to the speaking date.

Be sure to come to the Coin Club Monday July 9th.

Our program will be the members. Bring something from your collection

and give a little talk on it. How you started collecting and so forth.

Last Months program on Metal Detectors was quite interesting.

Your President bought a new detector and is having a lot of fun

and finding quite a few coins too.

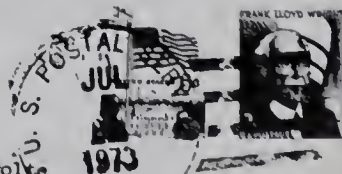

We will have our Membership and White Elephant Prizes as usual.

Refreshments too.

We are having an auction so be sure to bring some coins.

See you Monday night.

DAMAGED IN HANDLING
IN THE POSTAL SERVICE

While I am passing on complaints, I may as well list the editors. We are out of original articles for the Quarterly. I have asked many of you for articles and all I receive is promises, promises EXCEPT for those faithful few that have an article almost every issue. Next year you will have a new editor, so get busy, be kind to your editor. It is not the easiest job by any means. It requires hours of work.

Here are a few Tid-Bits your editor heard recently. No, I will not tell the source, but thought you might like to hear them. Do you know or have you wondered what the Z in Gordon Z. Greene stands for, and why he insists on you using it? That is our President, and here goes, it is ZORRO! ! Wedding Bells? Yes that is what we heard and they rang, so the news goes, for Pauline Ney and C.A. "Slim" Dunbar.

A CHIP

He always has something to grumble about,
Has the man with a chip on his shoulder;
The world to the dogs is going, no doubt,
To the man with a chip on his shoulder;
The clouds are too dark, the sun is too bright.
No matter what happens, it is never right;
When peace is prevailing he is spoiling to fight,
The man with a chip on his shoulder.

A BOOK

Who hath a book has friends at hand,
and gold and gear at his command;
And rich estates, if he but look,
are held by him who hath a book.
Who hath a book has but to read
and he may be a king indeed;
His kingdom is his inglenook;
All this is his who hath a book.

COLONIAL COINAGE OF NEW JERSEY

By Maurice M. Gould

As we come closer to the Bicentennial year of our country, 1976, the Colonial coinage of the U.S. takes on special appeal and has become more popular with the collector.

New Jersey has had one of the most interesting backgrounds in this early field of coinage. In 1682 the State Assembly of New Jersey passed a Resolution that the Mark Newby coppers, called "Patrick half-pence", should pass as half-pence, but that no one should be obliged to take more than five shillings of them in any one payment. For the next century, these and other pieces that had been brought from England were the copper coinage that circulated.

In 1786, a proposal was made to the State of New Jersey legislature for authority to mint copper coins, by Walter Mould, Thomas Goadsby and Albion Cox. A legislative committee made a favorable report and the legislature passed an Act authorizing the striking of copper coins in the amount of 10,000 pounds, at the rate of 15 coppers to the shilling. The coins were to be manufactured in the State and were to use marks and inscriptions suggested by the legislature or the Justice of the

Supreme Court. The coiners were to deliver to the Treasurer of the State 1/10th part of the full sum struck by them.

A few months later it was decided for Goadsby and Cox to coin two-thirds of the contract and Mould the balance. Mould had also had a background as a minter in Birmingham, England and it was he who established a mint at Morristown, New Jersey, where he produced coppers for a short period. He suffered considerable financial adversity, stopped minting entirely, and moved out of the State.

The other mint was in Elizabethtown, which was conducted by Albion Cox and Gilbert Grindley in the "Old Armstrong House".

There are a great many varieties and types of the New Jersey cents, with numerous rarities included. They were dated three years, 1786, 1787 and 1788.

The Immunis Columbia New Jersey cent is very rare, as is the one with an eagle on the obverse. There is a UNIQUE piece with General Washington on the obverse and an eagle on the reverse. All of these pieces were issued in 1786.

The greater majority of the pieces are the Horse and Plow

ety, with many variations,
as the date under the plow
le, no coulter, bridle variety,
ow and wide shield, small
large planchets, serpent
d, horse's head facing right,

Researchers in the Colonial

characteristics which show a
ng connection between the
mont, Connecticut and New
coppers, and it seems reas-
ble to assume from investig-
ns that the same engraver

COLLECTOR PROFILE

By Peggy Borgolte

Barbara Rader Hyde is a numismatist, an editor, an artist, an architect, a musician, an athlete, a sports car fan, a wife and a mother. . . . but we know her best as our recording secretary.

The role of editor of *Calcoin News* is not new for her, as she served as editor of *Numismatic Digest* (including *Western Coin Collector*), a publication produced monthly at Denver from 1965 to 1969.

Having put aside her girlhood coin collecting for other activities, Barbara revived her interest in the hobby through a close friend who enticed her to attend a meeting of the Denver Coin Club during the early fifties. It was a thriving, interesting group of more than one hundred members. She joined and later on became the club secretary. Her collecting interest expanded to exhibiting, judging, speaking and writing. Likewise, her membership in organizations grew to include the

ANA, CNA, TAMS, OIN, NLCSNA, NASC, CES and the relatively new Collectors of Art Medals, serving several as officer.

In an effort to specialize she became interested in coins and medals depicting various forms of architecture, reflecting her scholastic background of a degree in architecture and a minor in art at the University of Nebraska in Lincoln, where her folks still reside.

As an artist, Barbara has exhibited oil paintings at various art shows such as the Metropolitan Art Exhibit at the Denver Museum. She is currently a member of the Los Angeles County Museum of Art and has recently enjoyed several courses at the Laguna Beach School of Art, including painting and sculpture. She is currently doing bas-relief sculpture of the type used in medallic art.

The mother of active sons, Barbara joins in their enthusiasm for boating, and sports cars. Instead of flinching when they first brought an engine into their bedroom to overhaul, she discovered another of her multiple interests.

In due time she was a bonafied sports car navigator and has many trophies to her credit in rallying. She became an experienced flagman at sports car races — o

the few women in Colorado considered qualified to captain a "mer crew" at the track.

An accomplished pianist, hammer and tennis player also describes her — and she has even done some modeling.

Among the many awards Barbara has received for exhibiting her greatest thrill was receiving the Thomas Jefferson Award in 1967, it reads: For distinguished and unselfish service rendered in the field of numismatics in the Rocky Mountain area. In 1968 Barbara was named "Woman of the Year" by the company.

Still, "Bobbsie Boo" as she is affectionately known to her ever friends, apologizes for not keeping up with all her interests as much as she would like to.

NOTAPHILY

Ralph J. Marx

The title of this article is a word which most of you are not familiar with. It simply means collecting paper money. The person collecting paper money is called a notaphilist. This article is a brief introduction to collecting foreign money.

Many coin collectors are coming to a point where it is more and more difficult to add new coins to their collection and with the constant

increase of prices of coins many of us find it almost impossible to keep a collection going. However, all is not lost! There is still something new that you can start and have fun without spending too much money, foreign paper money collecting is the answer.

The field of foreign paper money collecting has been dormant in the United States for many years until recently with the introduction of some paper money books in English. Most books before were in other Languages and not easy to use. The history of money reflects civilization. Today ninety percent of all the world's financial transactions are carried out with paper money, and we can learn a great deal from its use throughout history. Although the field has been neglected until recently, paper money was used as early as 650 A.D. It did not become popular in Europe until about the 17th and 18th century.

It is ironical that a numismatist can look at a coin 1000 years old and date it very quickly, yet it is often difficult to date a banknote issued 50 years ago. Banknotes are becoming so popular the enthusiasts amass them like postage stamps. They build collections either by country or theme. Others are fond of the beautiful engraving work and acquire, for themselves, an art gallery in miniature. For example, under the heading of Thematic Collection, one can choose a great

number of subjects: Locomotives on notes of China, Nanchuko, Manchuria; Scientists like Louis Pasteur, France; Einstein, Israel; Liberators, and national heroes of Latin America like Simon Bolivar, Venezuela; Bernardo O'Higgins, Chile; and Jose de San Martin, Argentina, etc.

Other fields to collect are World War I and II, Military and Occupation Currency of Allies and Axis, Concentration camp notes, prisoner of war notes (Allied and Axis). Many countries issued local emergency currency such as Germany, Spain, Portugal and Mexico.

A Nation's financial history can be traced through currency. For example: Inflationary issues of Germany 1919-1923, Hungary after World War II and China. This is only a partial listing of the themes that can be collected.

Paper money is inexpensive, even scarce and rare pieces cost a fraction of what a coin of equal rarity could cost. It is not a field for the investor but if you are looking for something new and exciting this may be your answer. There are several paper money clubs available which publish excellent monthly and quarterly magazines with articles of great interest to a notaphilist. Some of the clubs are the International Banknote Society and the Currency Collector. An excellent book on the subject has recently been published, "The Story of

Paper Money" by Yasha Beresiner and Colin Narbeth.

With this short article on notaphily I would like to end by saying, 'Happy Hunting' and Good Luck on becoming a notaphilist.

June meeting was held in conjunction with the 10th Annual C.O.I.N. convention held at the Los Angeles Hilton Hotel. Markham who for the past seven years has served six years as an officer, and one year on the board. This is not an annual award, it is to be a very special and well deserved award.

Pleasant Hill received an award for his work as editor for two years. Dr. Charles Aby of San Raphael was master of ceremonies and he presented two fine speakers, Virginia Culver, ANA

vice president, who spoke on "A Senator from U.S. in Sonora". and Ray Byrne, of Pittsburgh, Penna. With his subject, "Coins of Latin America" both were well received. Peggy Borgolte was banquet chairman.

The club held their mid-year "pot luck" dinner in July. These have always been a huge success in the past and this year was no exception. Expected guests at the August meeting were the Mayor of Tenino, Washington, Ken Hadden, and Ray Lepire, Mayor of Pomona. Guest speaker scheduled, Thomas Hudson with his topic, "My First Year of Issues".

CALTECH-JPL NUMIS. SOCIETY

Each member received a "Report for 1972" in May. The report covered not only the financial position and comparative balance sheet but the following information taken from that report.

Average attendance at monthly meetings increased from 22 in 1971 to 25 in 1972. Attendance for the last six months is up nearly 60 percent over the prior year.

Membership increased from 42 at this time last year to 49 presently. The club continues to interest junior members (children of Institute employees). Fully 25% of their membership is from this category.

Rochelle Holberton was the guest speaker for May, her topic, "Take a Trip to Baht Land". Members enjoyed a set of remarkably clear color slides

of "United States silver coins" at the June meeting.

July meeting featured, J.H. "Mack" McInnis with his own prepared slides and talk on the "Many charming characteristics of foreign countries reflected in their paper currency".

CONEJO VALLEY COIN CLUB

Program at the May meeting was slide presentation on the subject "U.S. Coins 3¢ to 20¢ Pieces". The May bulletin had a very important article to the membership - "How Our Club Makes Money". Here are the four ways they listed following this statement: In order to have enough money to keep our club running, we have several things we do. 1. We have our elongated coins each year, for two reasons - fund raising and publicity. 2. We have wooden nickels made - for the above two reasons. 3. Sale of auction and bid sheets. The modest amount charged pays for the printing. 4. Membership dues. Our dues are really very low, but they help.

June was the club's last meeting for the summer. Meetings will begin again in September. Helen Coombs was the guest speaker for the last meeting, her subject, "The Presidents of the United States". Helen illustrated her talk with a display of her Mini Presidential Medals.

DOWNEY NUMISMATISTS
